WORK EXPERIENCE

FrontEnd Developer
TawsilStar | 2024-2025

- Built fast, SEO-friendly web applications using Next.js, focusing on server-side rendering and dynamic routing.
- Styled responsive, modern UIs with Tailwind CSS, ensuring consistent design across devices.
- Followed component-based development practices in ReactJS to create reusable and maintainable code.
- Optimized data fetching and caching strategies using NextJs server side and React Query (useQuery) for enhanced performance and user experience.

FullStack Developer
Kara design, Tlemcen | 2020-2022

- Developed full-stack web applications using React for the frontend and Node.js with Express for the backend, delivering robust and scalable solutions.
- Integrated MongoDB for efficient data storage, retrieval, and aggregation, ensuring high performance and scalability.
- Implemented secure authentication and authorization flows using JSON Web Tokens (JWT) and session management.

Web Development
Oscar, Tlemcen | 2019-2020

- Developed a user-friendly e-commerce website using HTML, CSS, and JavaScript.
- Utilized ReactJS for building user interfaces and NodeJS and PHP for back-end development.
- Used PhpMyAdmin for data persistence and management.
- Ensure a seamless user experience by regularly testing and debugging the website.
